

IN THE CLAIMS

Please amend the following claims. A marked-up version of the following claims is located in the section captioned "Version With Markings to Show Claim Changes Made."

Sub F1
Claim 1 (Five Times Amended). A composite chemical barrier fabric having improved durability comprising:
a multiple layer, chemical barrier material having a first side and a second side; and
a durability barrier layer coated on at least one of said first or second side comprising a thermoplastic polyolefin (TPO) with an inherent bonding affinity to the chemical barrier material, the coated chemical barrier composite achieving at least 25% improvement in ASTM 1342 puncture resistance and at least 25% improvement in modified ISO 7854 Method B flex-crack resistance of the fabric when compared to a fabric not having said durability barrier layer.

E1

Sub F3
Claim 13 (Three Times Amended) A composite chemical barrier fabric having improved durability, comprising:
a multiple layer, chemical barrier material having a first side and a second; and
